

AGS 2019 - Poster Instructions

Materials

Please note that the location of the poster hall has changed from the Golden Gate Foyer to the Atrium (Second Floor)

Poster presentations must fit into the image area of the vertical poster-boards, dimensions should not exceed 38.64" wide by 70" high. The poster may be on a single sheet or several smaller sheets. Materials, including the title, may not extend beyond the image area.

Before your presentation, please refer to the Poster Schedule to identify your specific poster number. As you enter the Atrium (second floor), find the poster board with your number and place your poster. Push pins will be available at your poster board.

Please be sure to take down your poster within the specified time to avoid your poster getting lost. Any posters remaining in the poster area at the end of the designated Tear-Down time will be recycled.

Poster Presentation Sessions

You are required to be present at your poster for the duration of your assigned Poster Presentation Session. This is when attendees will have the opportunity to ask you any questions and engage in discussion about your work.
